## RICOH Pro 907EX/1107EX/1357EX
### Quality Durability Flexibility Workflow

**Primary Features**
- **Base Unit:**
  - **Pro 907EX:** 90 ppm; 1107EX: 110 ppm; 1357EX: 135 ppm
  - 3,000 sheets
  - 3,000 sheet finisher (optional)
  - SR5020 Booklet Maker
  - RT5040 DLT Large Capacity Trays (optional):
    - Up to 10,000 sheets
  - SK5010 High Capacity Stacker (optional/no shown)

- **Shift Tray:**
  - 2,500 sheets
  - 500 sheets (5.5" x 8.5" SEF)

- **Proof Tray:**
  - 250 sheets
  - 500 sheets (5.5" x 8.5" LEF)

- **Ring Sizes Supported:**
  - 100 sheets/booklet

- **Media Sizes Supported:**
  - 5.5" x 8.5" to 12" x 18" (RT5030)
  - 5.5" x 8.5" to 13" x 19.2"

- **Media Weights:**
  - 14 lb. Bond – 90 lb. Index
  - 16 lb. Bond – 90 lb. Cover
  - 14 lb. Bond – 100 lb. Cover
  - 14 lb. Bond – 60 lb. Cover
  - 14 lb. Bond – 80 lb. Cover
  - 40 sheets after folding

- **Dimensions (WxDxH):**
  - 23.3" x 28.7" x 50"
  - 35.4" x 38.6" x 28.7"

- **Power Requirements:**
  - 208 – 240V, 50/60 Hz, 25A
  - 120V, 60Hz

- **Print Resolution:**
  - 100/150/200/300/400/600 dpi

- **Network Protocol:**
  - TCP/IP
  - SMTP Gateway and TCP/IP
  - SMB/FTP/NCP
  - IEEE 1284, IEEE 802.11a/b/g
  - IEEE 802.3, IEEE 802.3u

- **Utilities Supported:**
  - FTP, SmartDeviceMonitor
  - Remote Scanning
  - Web Image Monitor, Web Utilities
  - SmartDeviceMonitor

- **Optional Connectivity:**
  - 100Base-TX/10Base-T Ethernet
  - USB 2.0 (3.0)
  - IEEE 1284 Interface
  - IEEE 802.11a/b/g

- **Media Sizes Supported:**
  - 8.5" x 11", 8.5" x 14", 11" x 17"

- **Media Weights:**
  - 80 lb. Cover (52-216 g/m²)
  - 11 lb. Bond – 80 lb. Cover

- **Expansion Trays:**
  - One included (second one optional)

- **Tray Expansion Capacity:**
  - 3,000 sheets (8.5" x 11")
  - 3,000 sheets (12" x 18")

- **Print Speed:**
  - Pro 907EX: 90 pages/per-minute
  - Pro 1107EX: 110 pages/per-minute
  - Pro 1357EX: 135 pages/per-minute

- **Controller:**
  - 512 MB standard
  - 1 GB optional

- **Power Consumption:**
  - Maximum Efficiency
  - Production-Class Performance

- **CPU:**
  - Pressure Adjustment: 5 steps

### System Specifications

**General Specifications**
- **Max. Weight:**
  - Pro 907EX: 996 lb.
  - Pro 1107EX: 1,000 lb.
  - Pro 1357EX: 1,250 lb.

- **Max. Power:**
  - Pro 907EX: 2500 watts
  - Pro 1107EX: 2600 watts
  - Pro 1357EX: 3000 watts

- **Net Power:**
  - Pro 907EX: 1.5 kW
  - Pro 1107EX: 1.5 kW
  - Pro 1357EX: 1.5 kW

- **Dimensions (WxDxH):**
  - Pro 907EX: 34.3" x 33.9" x 58.2"
  - Pro 1107EX: 43.9" x 35" x 21.9"
  - Pro 1357EX: 43.9" x 35" x 21.9"

### RT5040 DLT Large Capacity Trays (optional)
- **Capacity:**
  - 2,000 sheets
- **Certification:**
  - DLT A3 media
- **Applications:**
  - DLX LCT

### SK5010 High Capacity Stacker (optional)
- **Capacity:**
  - 14,000 sheets
- **Applications:**
  - DLX LCT

### SR5020 Booklet Maker (optional)
- **Applications:**
  - DLX LCT
Depend on the RICOH® Pro 907EX/1107EX/1357EX digital imaging systems to deliver the speed, flexibility and failsafe reliability you need to maximize productivity in production-grade environments. Whether you need to add capacity for commercial or corporate production, these powerful systems deliver precise black & white output at speeds up to 135 pages-per-minute with versatile inline production, these powerful systems deliver precise black & white output at speeds up to 135 pages-per-minute with extremely long-term reliability.

Exceptional uptime and flexibility for production workflows.

• High-speed performance during peak production, plus outstanding long-term reliability.
• Identifies and corrects multiple-sheet feeding, with an innovative ultrasonic sensor that improves detection accuracy.
• Reliable operation during peak production, plus outstanding long-term reliability.
• Versatile inline finishing to deliver the speed, flexibility and failsafe reliability you need to maximize productivity in production-grade environments.

Unbeatable Reliability

Designed to run without interruption, the RICOH Pro 907EX/1107EX/1357EX systems are designed to ensure maximum uptime for high-volume copying, printing and scanning.

• Exceptional uptime and flexibility for production workflows.
• Reliable operation during peak production, plus outstanding long-term reliability.

RICOH Pro 907EX/1107EX/1357EX consistently exceed customers’ expectations.

• High-speed performance during peak production, plus outstanding long-term reliability.
• Versatile inline finishing to deliver the speed, flexibility and failsafe reliability you need to maximize productivity in production-grade environments.

Output at speeds up to 135 pages-per-minute with extremely long-term reliability.

• Versatile inline finishing to deliver the speed, flexibility and failsafe reliability you need to maximize productivity in production-grade environments.

Production-Class Productivity

Not only are these systems among the fastest in the market, they are equipped with the capabilities you need to maximize throughput and productivity.

• Produce large or complicated files significantly faster with a 1.4 GHz CPU.
• Process large or complicated files significantly faster with a 1.4 GHz CPU.
• Ensure fast, error-free media handling.
• Ensure fast, error-free media handling.

Flexible Finishing

Create an incredible variety of professionally finished documents without losing valuable production time.

• Produce high-quality booklets with a high-performance finisher that offers 100-sheet stapling in two positions, 20-sheet saddle-stitching, trimming and hole-punching by speeds up to 135 pages-per-minute with extremely long-term reliability.
• Produce high-quality booklets with a high-performance finisher that offers 100-sheet stapling in two positions, 20-sheet saddle-stitching, trimming and hole-punching by speeds up to 135 pages-per-minute with extremely long-term reliability.
• Give customers more options with a new Multi-Folding Unit that offers six patterns, including Z-Fold, Half-Fold, Letter Fold-in, Letter Fold-out, Double Parallel Fold, and Gate-Fold.
• Give customers more options with a new Multi-Folding Unit that offers six patterns, including Z-Fold, Half-Fold, Letter Fold-in, Letter Fold-out, Double Parallel Fold, and Gate-Fold.

Essential Security Tools

Protect sensitive customer documents and the system itself from unauthorized use with advanced security features.

• Confirm the identity of individuals prior to system access with internal and external authentication, including options for Windows and LDAP.
• Control which features authorized users can employ via the Ricoh Secure Device Manager (SDM).
• Prevent Denial of Service (DoS) attacks, reduce the risk of virus and malware infection, and defend against user name/password theft with the Network Protocol On/Off function.
• Find copy/scan features quickly with the versatile Multi-Folding Unit.
• Confirm the identity of individuals prior to system access with internal and external authentication, including options for Windows and LDAP.
• Control which features authorized users can employ via the Ricoh Secure Device Manager (SDM).
• Prevent Denial of Service (DoS) attacks, reduce the risk of virus and malware infection, and defend against user name/password theft with the Network Protocol On/Off function.
• Find copy/scan features quickly with the versatile Multi-Folding Unit.

• Find copy/scan features quickly with the versatile Multi-Folding Unit.

Simple, Easy Operation

The RICOH Pro 907EX/1107EX/1357EX systems are designed to ensure intuitive, fast-paced operation in the face of demanding workflows.

• Find copy/scan features quickly with the versatile Multi-Folding Unit.
• Confirm the identity of individuals prior to system access with internal and external authentication, including options for Windows and LDAP.
• Control which features authorized users can employ via the Ricoh Secure Device Manager (SDM).
• Prevent Denial of Service (DoS) attacks, reduce the risk of virus and malware infection, and defend against user name/password theft with the Network Protocol On/Off function.
• Find copy/scan features quickly with the versatile Multi-Folding Unit.
Unbeatable Reliability

Designed to run without interruption, the RICOH Pro 907EX/1107EX/1357EX systems are designed to ensure intuitive, fast-paced operation in the face of demanding workloads.

- Find copier features quickly with the Super Viva Color Touch Panel Display technology.
- Embed an invisible masking pattern in originals that shows up if any physical or electronic alteration occurs, which can easily be detected by trained users without making a service call.
- Give customers even more options with a new Multi-Folding Unit that offers six patterns, including Z-Fold, Half-Fold, Letter Fold-in, Letter Fold-out, Double Parallel Fold, and Gate-Fold.
- Prevent Denial of Service (DoS) attacks, reduce the risk of virus penetration, and minimize downtime.
- Overwrite latent hard drive data automatically after every copy, scan, print, and send job with the optional DataOverwriteSecurity technology.
- Control which features authorized users can employ via internal and external authentication, including options for Windows and LDAP.
- Control all print queues and adjust settings.
- Perform administrative tasks remotely with the Ricoh @Remote Intelligent Management System, which facilitates remote device management.
- Monitor multithreading and minimize time spent at the system with high-speed finishing—up to 80 copies per minute for black & white and color images.

Essential Security Tools

- Protect sensitive customer documents and the system itself from unauthorized use with advanced security features.
- Confirm the identity of individuals prior to system access with external and internal authentication, including options for Windows and LDAP.
- Control which features authorized users can employ via access restriction.
- Monitor data from interception, analysis and tampering with encrypted transmission supported by Secure Socket Layer (SSL) technology.
- Control hard drive data automatically after every copy, scan, print, and send job with the optional DataOverwriteSecurity technology.
- Protect data from interception, analysis and tampering with encrypted transmission supported by Secure Socket Layer (SSL) technology.
- Control which features authorized users can employ via access restriction.
- Monitor data from interception, analysis and tampering with encrypted transmission supported by Secure Socket Layer (SSL) technology.
- Perform administrative tasks remotely with the Ricoh @Remote Intelligent Management System, which facilitates remote device management.
- Monitor multithreading and minimize time spent at the system with high-speed finishing—up to 80 copies per minute for black & white and color images.

The Total Green Office Solution

Ricoh continues its long-standing commitment to developing office solutions with environmentally friendly and superior energy- and supply-saving features, without compromising productivity.

Exceptional up-time and flexibility for production workflow. Depend on the RICOH® Pro 907EX/1107EX/1357EX digital imaging systems to deliver the speed, flexibility and failsafe reliability you need to maximize productivity in production-grade environments. Whether you need to add capacity for commercial or corporate production, these powerful systems deliver precise black & white output at speeds up to 135 pages-per-minute with versatile inline production, these powerful systems deliver precise black & white output at speeds up to 135 pages-per-minute with extremely long-term reliability.

- Lightweight and compact design for easy installation and management.
- Streamlined design for easy maintenance and operation.
- Embedded Ultrasonic Photo Conductor life sensor that improves detection accuracy, allowing for self-test intervals of up to 1,000 hours with the Advanced Feature on the 3007EX, can provide active life for up to 100,000 copies.
- Multifunctional with 4,000 paper capacity, replaces ideas (TRUs), which can easily be replaced by trained users without making a service call.

Production-Class Productivity

Not only are these systems among the fastest in the market, they are equipped with the capabilities you need to maximize throughout and productivity.

- Print large or complicated files quickly using the 1.4 GHz CPU.
- Process large or complicated files quickly using the enhanced memory architecture, including 512 MB RAM standard (upgradeable to 1.5 GB) and a 320 GB hard drive.
- Complete high-volume runs of large, multiple-documents without breaking a sweat.
- Expand in-house capabilities and reduce outsourcing by handling a wider variety of media sizes (up to offset-sized 13" x 19.2") and stocks (up to 300 g/m²).
- Expect reliable operation during peak production, plus outstanding performance for printing—up to 135 pages-per-minute with extremely long-term reliability.
- Use a wider range of stocks, from thin (40 g/m²) to thick (300 g/m²)
- Expect reliable operation during peak production, plus outstanding performance for printing—up to 135 pages-per-minute with extremely long-term reliability.

Flexible Finishing

Create an incredible variety of professionally finished documents without losing valuable production time.

- Product-capturing booklets with a high-performance finisher that offers 100 Sheet stapling in two positions, 20-Sheet saddle-stitching, trimming and hole-punching at speeds up to 135 pages-per-minute with extremely long-term reliability.
- Create perfect-bound books up to 400 pages (duplex), such as technical manuals, training materials and operation guides, with the inline Perfect Binder.
- Give customers even more options with a new Multi-Folding Unit that offers six patterns, including Z-Fold, Half-Fold, Letter Fold-in, Letter Fold-out, Double Parallel Fold, and Gate-Fold.
- Prevent Denial of Service (DoS) attacks, reduce the risk of virus penetration, and minimize downtime.
- Monitor data from interception, analysis and tampering with encrypted transmission supported by Secure Socket Layer (SSL) technology.
- Control which features authorized users can employ via access restriction.
- Perform administrative tasks remotely with the Ricoh @Remote Intelligent Management System, which facilitates remote device management.
- Monitor multithreading and minimize time spent at the system with high-speed finishing—up to 80 copies per minute for black & white and color images.

Enable your customers to choose from a full menu of folding options with the versatile Multi-Folding Unit.

- Create perfect-bound booklets at the touch of a button, up to 200 sheets (400 pages in duplex)
- Digitally create perfect-bound booklets with the StreamPunch™ III, which offers inline punching in a variety of patterns.
- Complete high-volume runs of large, multiple-documents without breaking a sweat.
- Expand in-house capabilities and reduce outsourcing by handling a wider variety of media sizes (up to offset-sized 13" x 19.2") and stocks (up to 300 g/m²).

Automatic feed, staple and fold production time.

Finishing at the speed and quality your customers expect.

- Create perfect-bound booklets at the touch of a button, up to 400 pages in duplex.
- Give customers even more options with a new Multi-Folding Unit that offers six patterns, including Z-Fold, Half-Fold, Letter Fold-in, Letter Fold-out, Double Parallel Fold, and Gate-Fold.
- Complete high-volume runs of large, multiple-documents without breaking a sweat.
- Include inline finishing features to save time and expense of starting binding elements off-line, essentially lowering labor costs.

Enable your customers to choose from a full menu of folding options with the versatile Multi-Folding Unit.

- Give customers even more options with a new Multi-Folding Unit that offers six patterns, including Z-Fold, Half-Fold, Letter Fold-in, Letter Fold-out, Double Parallel Fold, and Gate-Fold.
- Complete high-volume runs of large, multiple-documents without breaking a sweat.
- Expand in-house capabilities and reduce outsourcing by handling a wider variety of media sizes (up to offset-sized 13" x 19.2") and stocks (up to 300 g/m²).

Flexible Finishing

Create an incredible variety of professionally finished documents without losing valuable production time.

- Produce capturing booklets with a high-performance finisher that offers 100 Sheet stapling in two positions, 20-Sheet saddle-stitching, trimming and hole-punching at speeds up to 135 pages-per-minute with extremely long-term reliability.
- Give customers even more options with a new Multi-Folding Unit that offers six patterns, including Z-Fold, Half-Fold, Letter Fold-in, Letter Fold-out, Double Parallel Fold, and Gate-Fold.
- Prevent Denial of Service (DoS) attacks, reduce the risk of virus penetration, and minimize downtime.

Exceptional uptime and flexibility for production workflow. Depend on the RICOH® Pro 907EX/1107EX/1357EX digital imaging system to deliver the speed, flexibility and failsafe reliability you need to maximize productivity in production-grade workflows. Whether you need to add capacity for commercial or corporate production, these powerful systems deliver precise black & white output at speeds up to 135 pages-per-minute with versatile inline finishing. So you can turn jobs faster, increase efficiency and consistently exceed customers’ expectations.

Unbeatable Reliability
Founded on a heritage of proven technology and exceptional uptime, the RICOH Pro 907EX/1107EX/1357EX systems ensure maximum uptime for high-volume copying, printing and scanning.

• Expect reliable operation during peak production, plus outstanding long-term reliability.
• Identify, and correct multiple-sheet feeding, with an innovative ultrasonic sensor that improves detection accuracy.
• Get up to 135 pages-per-minute in black & white with the Pro 1107EX, or up to 120 pages-per-minute with the Pro 907EX. RICOH’s award-winning two-edge and multi-edge trimmers minimizes waste.
• Minimize downtime with Trained Customer Replaceable Units (TCRUs), which can easily be replaced by trained users without making a service call.

Production-Class Productivity
Not only are these systems among the fastest on the market, they are equipped with the capabilities you need to maximize throughput and productivity.

• Process large or complicated files quickly and reliably with a 1.4 GHz CPU.
• Expect faster performance from the enhanced memory architecture, including 128 MB standard (upgradeable to 1 GB and 2 GB) for higher capacity and productivity.
• Use a wider range of stocks, from thin (40 g/m²) to thick (300 g/m²).
• Minimize downtime by identifying and correcting multiple-sheet feeding, with an innovative ultrasonic sensor that improves detection accuracy.
• Expand in-house capabilities and reduce outsourcing by handling a variety of media sizes (up to 23.2” x 16.5” and cards up to 280 g/m²).

Flexible Finishing
Create an incredible variety of professionally finished documents without losing valuable production time.

• Produce breathtaking books with a high-performance finisher that offers 100-sheet stapling in two positions, 20-leaf saddle-stitching, trimming and side folding at speeds up to 135 pages-per-minute with a wide range of options.
• Give customers more options with a new Multi-Folding Unit that offers six patterns, including Z-Fold, Half-Fold, Letter Fold-in, Letter Fold-out, Double Parallel Fold and Gate-Fold.

Simple, Easy Operation
With the Super VGA Color Touch Panel Graphical Interface, you can complete high-volume runs of large, multi-page documents without pausing to reload trays with the virtually limitless media supply.

• Embed an invisible masking pattern in originals that shows up if unauthorized users attempt to copy or scan documents on any system with this same feature.
• Prevent Denial of Service (DoS) attacks, reduce the risk of virus propagation and assure that only authorized users can employ via Network Protocol On/Off function.
• Control which features authorized users can employ via the Ricoh @Remote Intelligent Management System (DOSS).
• Find copy/scan features quickly with the Super VGA Color Touch Panel Graphical Interface’s intuitive, fast-paced operation in an easy-to-navigate menu of folding options with the versatile Multi-Folding Unit.

#### Finisher Specifications

- **Finisher (optional)**: SR5020 Booklet Trimmer (optional), TR5020 Booklet Trimmer (optional), FD5000 Multi-Folding (optional)
- **Output Options**: Staple up to 100 sheets in multiple folding requirements with the versatile Multi-Folding Unit.
- **Tray Specifications**:
  - Tray 1: 2 x 1,000-Sheet Tray
  - Tray 2: 1 x 500-Sheet Tray
  - Tray 3: 1 x 1,000-Sheet Tray
  - Tray 4: 1,000-Sheet Tray
  - Tray 5: 1,000-Sheet Tray
  - Tray 6: 14 lb. Bond - 60 lb. Cover

#### Control Panel

- **Control Panel**: SmartDeviceMonitor, Printer Utility
- **Scanner Unit**: Gigabit Ethernet, Bluetooth
- **Maximum Capacity**: 3,000 sheets (standard)
- **Dimensions (WxDxH)**: 34.2” x 28.7” x 38.5”
- **Power Requirements**: 20 – 240V, 50/60 Hz
- **Power Consumption**: 1.5 GB (standard)

#### Optional Features

- **PostScript 3 (PS3)**: 136 Adobe Type 1
- **Color Separation**: Yes

### Conclusion

Ricoh technology offers a diverse portfolio of solutions to help your organization stay competitive and focused on core business processes, while increasing productivity and reducing costs. The Ricoh Pro 907EX/1107EX/1357EX is designed to meet the needs of large offices and workgroups, offering high-quality output with durability, flexibility, and ease of use. Whether your needs are for high-speed printing, advanced finishing options, or comprehensive networking, Ricoh has the solution for you.
